

LubePro™ Series Pumps

For Simple, Injector-based Automatic Lubrication Systems

The Choice of Lubrication Professionals.

As a hard-working professional focused on ensuring your production lines keep moving and your operating costs are reduced, automatic lubrication should be an essential part of your machine maintenance. Without proper lubrication your equipment can suffer from downtime and reduced life, which impacts your company's bottom line. Avoid the hassle. Meet your LubePro™.

PROVEN QUALITY. LEADING TECHNOLOGY.

LubePro

Built to Last. Built to Perform.

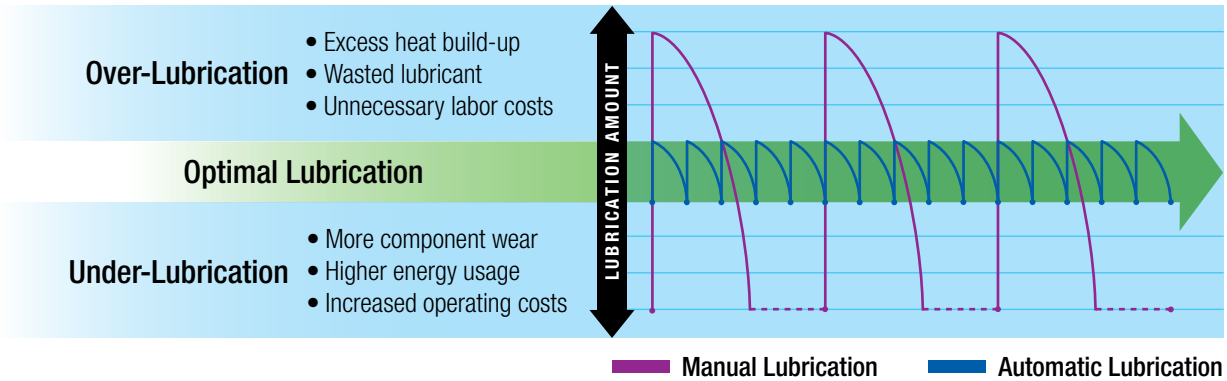

Field-Proven Reliability

For nearly 60 years, Graco Fire-Ball™ pumps have been a mainstay in the lubrication marketplace for durability and long life. Designed for the toughest applications, the Fire-Ball repeatedly outperforms and outlasts the competition. LubePro™ series pumps leverage the same proven quality and leading technology.

Performance

LubePro series pumps offer a robust solution where high output and fast lubrication cycles and flow rates are needed to optimally lubricate equipment while it's working. Our robust design has been tested to outperform the competition.

Positive Impact to Your Bottom Line

LubePro is the choice of lubrication professionals, because it positively impacts your company's bottom line by automatically providing the optimal amount of lubrication at the right time.

- Extends equipment life
- Improves productivity
- Reduces downtime
- Reduces repair costs
- Reduces operating costs
- Improves employee safety

Typical Applications

- Packaging
- Food and Beverage Processing and Packaging
- Glass Manufacturing
- Tire Production
- Thermoforming
- Injection Molding
- Paper Production
- Labelers
- Automation Machinery
- Presses
- Steel Forging and Finishing
- Bearing Manufacturing

Vertical Pumps

A2800 and A2900

High-strength, shatter-resistant reservoir

Utilizes a high-quality, polycarbonate reservoir

Self-venting pump

Integrated vent automatically relieves pressure on return stroke, no pressure switch or wiring required

Easy to Install

Utilize existing mounting holes for easy replacement and installation

Simple Controlling

PLC or Lube controller actuates a 3-way air valve to drive pump, and vent on the return stroke

Pneumatic Power

Easily installed into existing air line

Fast cycle rate and flow

Cycles and vents lubricant injectors in as little as 10 seconds. 0.56 in³ of oil per stroke and 0.58 in³ of grease per stroke.

Multiple Reservoir Types

Oil without follower plate – 0.6 and 2 liter
Grease with follower plate – 1 and 4 lb.

Low Level Detection

Reliable, Graco factory-installed low level indicator that is easy to connect using a simple DIN connection.

24Z028

24Z053

Technical Specifications

	A2800	A2900
Fluid Handling Capabilities	40 cSt oil minimum	Up to #2 grease
Maximum Working Pressure	3,500 psi (241 bar)	3,500 psi (241 bar)
Pressure Ratio	28:1	29:1
Pump Output Per Stroke	0.56 in ³ (9.18 cm ³)	0.58 in ³ (9.5 cm ³)
Maximum Air Inlet Pressure	175 psi (12.1 bar)	175 psi (12.1 bar)
Air Inlet Size	1/4 in. NPT	
Fluid Outlet Size	1/4 in. NPT	
Operating Temperature	14° F - 149° F (-10° C - 65° C)	

Ordering Information

Pump Model	Fluid	Pressure Ratio	Reservoir Size	NPT		BSPP	
				Pump Without Low Level	Pump With Low Level	Pump Without Low Level	Pump With Low Level
A2800	Oil	28:1	0.6 liters	24Z020	24Z021 (NO)	24Z023	24Z024 (NO)
					24Z022 (NC)		24Z025 (NC)
			2 liters	24Z026	24Z027 (NO)	24Z029	24Z030 (NO)
					24Z028 (NC)		24Z050 (NC)

					24Z053 (NC)		24Z056 (NC)
			4 lb	24Z057	24Z058 (NO)	24Z060	24Z061 (NO)
					24Z059 (NC)		24Z062 (NC)

Horizontal Pumps

H1900, A1900 and A2600

Two reservoir types

2 liter reservoir available in grease or oil. Select from the 19:1 oil pump or the 26:1 grease pump.

High-strength, shatter-resistant reservoir

Utilizes a high-quality, polycarbonate reservoir that is securely mounted to the pump with rigid tie rods for optimal sealing

Easy to install

Utilize existing mounting holes for easy replacement and installation

Fire-Ball pump casting

Leverages the proven quality and long life of Graco's Fire-Ball pump. Eliminates tie rods and end cap.

Low level detection option

Reliable, Graco factory-installed low level indicator that is easy to connect using a simple DIN connection

Fast cycle rate and flow

Cycles and vents lubricant injectors in as little as 10 seconds. 2.2 in³ of grease per stroke and 3.0 in³ of oil per stroke.

Self-venting pump

Integrated vent automatically and reliably relieves pressure on return stroke, no pressure switch or wiring required

No priming required

No need to bleed the valve to prime the pump, no priming is required

Pneumatic Power

Easily installed into existing air line

A900 Pump

High-strength, shatter-resistant reservoir

Utilizes a high-quality, polycarbonate reservoir that is securely mounted to the pump with rigid tie rods for optimal sealing

Low level detection option

Reliable, Graco factory-installed low level indicator

Large-capacity oil pump

9:1 oil pump with 2.8 liter capacity

Fast cycle rate and flow

Cycles and vents lubricant injectors in as little as 10 seconds and provides 1.5 in³ of oil per stroke

Self-venting pump

Integrated vent automatically relieves pressure on return stroke, no pressure switch or wiring required

Pneumatic Power

Easily installed into existing air line

Technical Specifications

GL Series Grease and Oil Injectors

Higher Quality, Higher Performance

Choose durable, long-lasting Graco injectors to perform your lubrication automatically and minimize downtime and maintenance costs.

- Long-life seals
- One-piece, machined body
- Seven outlet fitting sizes
- Adjustable injector output
- Visual indicator pin
- Wide range of manifold options

Technical Specifications

Graco GL-1 Series injectors can also be used with the LubePro Series pumps. See Graco's Industrial Lubrication Equipment Buyer's Guide for ordering information.

LubePro Accessories

Air Valves

- 3-way air valves available for A900, A2800, and A2900 Vertical Oil Pumps
- 4-way air valves available for A1900, H1900, and A2600 Horizontal Pumps

Ordering Information

215407	3-way air solenoid valve, 150 psi (10 bar), (1/2 npsm(f) conduit ports for wiring; 1/4 npt(f) air ports, adapted to 3/8(f) IN, 3/8(m) OUT) operates on 24V DC and 110 VAC.
105474	3-way air solenoid valve (bare), 150 psi (10 bar), same as 215407 but without wire connectors or adapters. 1/2 npsm(f) conduit ports for wiring, 1/4 npt(f) air ports. 150 psi (10.3 bar) maximum working pressure.
563315*	3-way pneumatic solenoid valve, 115 VAC
563332*	3-way pneumatic solenoid valve, 24 VDC
128305	4-way air valve, 12 VDC
128254	4-way air valve, 24 VDC
128255	4-way air valve, 110 VAC
128257	4-way air valve, 220 VAC
560734	Air valve reservoir mounting bracket
24Y079	4-way air valve installation kit – 12 VDC air valve, bracket, air lines, fittings
24Y080	4-way air valve installation kit – 24 VDC air valve, bracket, air lines, fittings
24Y081	4-way air valve installation kit – 110 VAC air valve, bracket, air lines, fittings
24Y082	4-way air valve installation kit – 220 VAC air valve, bracket, air lines, fittings

*For use with A900 only.

Controllers

GLC2200 or GLC4400 lubrication controllers are available.

Ordering Information

24N468	GLC 2200 controller
24P314	GLC 2200 wiring harness – 5 feet (150 cm), flying leads
24W981	GLC 2200 wiring harness – 10 feet (300 cm), flying leads
24P686	GLC 2200 connector (1) and pins (12)
24P687	GLC 2200 connectors (5) and pins (60)
24B591	GLC 4400 Controller, 9-30 VDC
24B596	GLC 4400 Controller, 100-240 VAC

Pressure Switches

Not required, but can be used as an alarm to detect if pressure was not achieved.

Ordering Information

24K414	Set pressure range 290-580 psi (20-40 bar), reset pressure range 175-5,685 psi (12-392 bar), M12 connector (female), 9.6-32 VDC, 1/4 inch (7.6 cm) npt thread (male)
115124	Single post pressure switch
558947	Dual post control pressure switch
24N180	IP65 rated. Fluoroelastomer seals. Din connector. 580-5,800 psi (40-400 bar). 1/4 inch bspp inlet.
24N181	IP65 rated. Fluoroelastomer seals. Din connector. 580-5,800 psi (40-400 bar). 1/4 inch npt inlet.

Visit www.graco.com for additional switch options.

Air Filter-Regulator-Lubricators

Not required, but can be used in-line to protect and extend system component life.

Ordering Information

110149	Kit includes 20 micron air filter (110146), regulator (110318), 300 psi (21 bar) WPR maximum lubricator (110148), and pressure gauge (110319). 1/4 inch npt inlet/outlet.
--------	---

Coupler

Quick-disconnect coupler used to fill grease reservoirs on A2600 and A2900.

Ordering Information

121474	Female coupler. Quick-disconnect. 1/4 inch npt.

Graco's got you covered

Facilities Worldwide for Global Support

Quality First

At Graco we pride ourselves on providing best-in-class products. Engineered solutions are manufactured in our own facilities, with the highest standards in the industry. We provide you with world-class customer support and expertise to help solve your lubrication challenges.

Global Reach

Graco has facilities and distribution partners across the globe to provide you with the products and service *you* need, where *you* live. Plus, Graco has dedicated field experts in all areas of the world to support the products we sell.

Product Capabilities

Graco has a broad range of products to provide solutions that meet your needs. Our products are engineered and tested to perform in the harshest environments so you can be certain your equipment is protected and working at peak performance.
